

**AMENDMENTS TO THE ABSTRACT OF THE DISCLOSURE**

Please enter the following Abstract of the Disclosure in the record:

A refrigerating unit for installing in a furniture niche has a body and a door that enclose a thermally insulated inside compartment. The door can pivot about an axis between an open and closed position. A decorative panel conceals the door and can move therewith. When the refrigerating unit is properly installed in the furniture niche, the door projects beyond a front edge of the furniture niche.
